

## Balance U.S. Books: Snyder

### Declines Comment On Higher Taxes

Washington, Dec. 2.—(AP)—A White House request for higher taxes next year appeared likely today as Secretary of the Treasury Snyder said the government must maintain "adequate" rates to balance the budget.

Although he declined to say whether he has recommended higher taxes, Snyder did declare he is "guided by the president's position," and on that point, Mr. Truman has said he knows of no way to erase the expected \$5,500,000,000 deficit this fiscal year without a tax increase.

Snyder went on to say that he also believes the government should cut spending "in every possible way," but he did not offer any detailed suggestions.

**Speaks To Joint Group**  
He expressed these views to a senate-house economic subcommittee which is studying the government's financial policies to see whether they contribute to the nation's economic stability.

Snyder told the law makers he did not feel he should discuss the tax and budget question further publicly at this time since Mr. Truman's budget message will be going to congress next month.

The treasury chief's testimony generally was a reiteration of his previous statements to the effect that Americans now are enjoying record prosperity and therefore the budget should be balanced and the \$257,000,000 public debt trimmed.

"National income today is close to the highest level in our history," he said, "and by every standard of sound government finance, the time to have a balanced budget is now."

When Senator Douglas (D-Ill.), chairman of the subcommittee, remarked that there has been a business "recession" this year, Snyder said no—it was "an adjustment."

Snyder said there have been some setbacks of a local nature but he asserted "we haven't had any recession in the general picture."

He blamed the income tax cut voted in 1948 by the Republican-controlled 80th congress for the deficits of the past two fiscal years. He said the government will have to borrow more cash before next June.

The treasury's borrowing policies meanwhile came under attack by Senator E. A. Tamm, a member of the federal reserve board of governors and former board chairman.

Eccles said the treasury was forcing inflation by its "general easy money bias."

## Denies Further US Housing To Racial Restriction Areas

Key West, Fla., Dec. 2.—(AP)—President Truman reopened the explosive civil rights issue here today with White House declaration of a policy denying further federal housing administration financing to any "racially restricted properties."

Solicitor General Philip B. Perlman announced such a decision in New York earlier in the day.

William D. Hassett, a presidential secretary, asked about Perlman's announcement, told a news conference: "That is the administration policy. That speech was delivered with the knowledge of the president and he (the president) approved the line laid down by Mr. Perlman."

Hassett spoke in the absence of presidential press secretary Charles G. Ross, who was out with the president on a fishing trip.

Mr. Truman's advocacy of anti-discrimination measures split his party in the south last year and cost him four Dixie states in his successful reelection campaign. A senate filibuster against them followed early this year.

## House Burns After Tenants Receive Threatening Note

Moline, Ill., Dec. 2.—(AP)—Fire caused \$5,000 damage to the Fred Meersman home last night and tenants in a basement apartment, where the blaze started, said they had received several threatening notes recently.

Carl Carlson, occupant of the apartment, and his housekeeper, Mrs. Alice Carlson, his former wife, told police today they received notes threatening them.

One note, they said, stated, "you'll have a fire bigger than a small fire." This, Carlson stated, apparently referred to a minor blaze in the apartment recently.

No one was at home at the time of last night's blaze.

Police and fire officials are investigating.

## Commies Almost Caught Chiang At Chungking

Chengtu, China, Dec. 2.—(AP)—The Chinese Communists almost caught Chiang Kai-Shek, No. 1 on their "war criminals list," at Chungking. It now can be told how close the generalissimo came to capture.

It was so close that his entire staff was jittery with fright. Chiang had refused for several days to leave Chungking despite the pleas of his staff. He insisted that panic would break out if he left. Many officials never would get away.

And so he waited, while the Reds marched ever nearer to the city. Tuesday it became impossible to delay longer.

The generalissimo got into his car and set out for Feichang airfield in the northwestern outskirts.

The jam of refugees on the highway was so great he had to abandon his automobile. He got out and walked part way. A jeep came along and he borrowed it.

It was midnight when he reached the field, where his skymaster plane waited.

The generalissimo did not get aboard, however. He went to air force headquarters and obtained the latest battle reports.

## Russians Express Regret That U.S. Soldier Was Shot

Berlin, Dec. 2.—(AP)—Soviet Col. Alexei Yelissarov said today he was sorry one of his sentries shot and killed an American service man in Berlin last week.

But he indicated this could happen again if Americans refuse to obey the orders of his zonal border guards.

Yelissarov replied to a protest by Maj. Gen. Maxwell D. Taylor, U. S. commandant, over the shooting of an air force staff sergeant, John E. Ramsey, Ill. Staff apparently had failed to heed a challenge at a Russian checkpoint.

The Russian colonel expressed "sincere regrets," but made it plain he considered the shooting the American's own fault. A U. S. spokesman called the reply unsatisfactory because it refused to acknowledge "irresponsible use of firearms."

The sergeant, two other soldiers and a German girl drove up to the Soviet zone checkpoint and, when halted, tried to get away. The sentry fired and was hit in the head.

He died in the British air force hospital later that night. The men were in army fatigue clothes of blue denim and were using the staff car of Col. John Barr, commandant at Tempelhof Airport, without his permission.

## Two More Records Broken As Prize Livestock Is Sold

Chicago, Dec. 2.—(AP)—Two prize records toppled today as some of America's finest eating animals went on the auction block at the 57th jubilee International Livestock Exposition.

The junior grand champion steer of the great annual fair sold for \$50.00 a pound. The previous high for the junior beef animal had been \$45.00.

The grand champion barrow, exhibited by Ohio State University, was chanted up to \$30.00 a pound by auctioneer Ray Sims. The former high price had been \$26.50 a pound, set in 1946.

The steer, led in front of a tense group of bidders by its mistress, Bonnie Lu Logan, 15, of Van Wert, O., weighed 1,330 pounds and brought the pretty Ohio girl \$8,650. The Stevens hotel, Chicago, bought the walking fillet mignons.

The 271 pound Berkshire barrow was purchased by Swift and Co. The grand champion wether of the show, a Southdown lamb shown by the University of Kentucky, brought \$10.00 a pound, 50 cents under the record price established in 1948. The lamb weighed 86 pounds and was bought by Armour and Co.

## Police Hunt Man Who Killed Wife, Daughter In Rage

Memphis, Tenn., Dec. 2.—(AP)—Police tonight threw a widespread net for a man who, they said, killed his wife and daughter and told his horrified landlady "it takes a man with guts to do something like that."

Sheriff Jimmy Thompson said a three-alarm alarm had been broadcast for W. F. Bean, 51, a mechanic. The landlady said Bean left the house before police arrived, saying he was going to kill himself.

Bean's nine-year-old son, Donald Ray Bean, was seriously wounded during the shooting, a 22-caliber bullet tearing through his abdomen. Two other children in the room were unharmed.

One of them, Bonnie Fay Bean, sobbed convulsively as she outlined the midnight shooting to deputies. "He shot mother first," she cried, "and then he shot Dorris because she was screaming. He had been drinking and was mad. They (the parents) had been arguing."

Officers arriving at the scene found Mrs. Fannie Bean, 35, and Dorris Jean, 11, shot through the head.

Bonnie Fay told newsmen she didn't know how Donald got shot, but "I don't think daddy meant to shoot him."

He has been associated with the U. S. public health service and a physician at Marion. He was graduated from the University of Illinois and interned at Cook county hospital.

Rockford, Ill., Dec. 2.—(AP)—Morris Rosenbloom was about \$4.80 ahead today after refusing to be the victim in an attempted robbery.

He told police a burly negro entered his tobacco shop this morning. Asked for a pack of cigarettes, and gave him a \$5 bill. As he turned to make change, he said, the man pulled out a knife and slashed at him.

Rosenbloom grabbed a gun from near the cash register and the man fled. Rosenbloom has the \$5 bill; the man has the cigarettes. Net to Rosenbloom—about \$4.80.

Kewanee, Ill., Dec. 2.—(AP)—Sandra Norberg, 5-year-old daughter of Mr. and Mrs. Clarence Norberg of Galva, died in a Kewanee hospital last night of burns.

Police Hunt Man Who Killed Wife, Daughter In Rage

### Forecasts Demo Victories For Years To Come

New York, Dec. 2.—(AP)—Vice-President Barkley tonight challenged all "tree-sitters and hitching post devotees" who fear the "welfare state."

And he forecast Democratic victories for years to come over the forces who see "Uncle Sam as a complacent old gentleman sitting astride the dome of the capitol drawing his salary and doing nothing."

The 72-year-old vice-president interrupted his Georgia honeymoon to speak at a \$100-a-plate fund-raising dinner of the Democratic national committee.

**Prominent Demos Attend**  
Mrs. Barkley accompanied him. Many members of President Truman's cabinet and other prominent Democrats were in the audience of 2,500 at the Waldorf-Astoria hotel.

Barkley predicted in his prepared speech that the Democrats would increase their senate and house majorities next year "in order that the Democratic process may harmoniously continue in behalf of the American people."

Under Democratic reforms demanded by "the people themselves," he declared, "Americans have become more prosperous, more content and more universally employed than at any other period in history."

"We are now told," he said, "by those who delight to occupy the position of tree-sitters and hitching post devotees that this program is leading us down the road to the so-called welfare state. We are being told that we are now on the last mile toward collectivism in America."

This, Barkley declared, is the argument of "those who regard every tree frog as a roaring lion and every innocent angelform as a spreading alarm."

"These prophets of pessimism," he went on, "have not told the American people what part of the Democratic program is to be repealed."

"They have not told us how far back we must go in order to recognize Uncle Sam as a complacent old gentleman sitting astride the dome of the capitol drawing his salary and doing nothing."

Barkley said congress has been compelled by the people to "extend its activities in the field of regulations, direction and control" to keep the channels of trade free and promote the general welfare.

These measures, said the vice-president, were not "superimposed upon an unwilling people" by politicians but were "an orderly advancement in the efficiency and the efficacy of government in fields which government alone can occupy."

## Lewis Refuses To Let Dawson Serve On Welfare Board

Washington, Dec. 2.—(AP)—John L. Lewis refused again today to let former Federal Judge Charles I. Dawson function as a trustee chosen by coal operators on the miners' welfare fund board.

Dawson told reporters that at today's trustee meeting Lewis wouldn't accept his votes as valid.

"But I sure as hell voted," the Louisville attorney declared.

With chairman Lewis declining to accept Dawson's votes on fund spending policies, the result was a deadlock. Lewis, representing the United Mine Workers union, voted one way. The third trustee, Senator Bridges (R-NH), representing the public, voted another.

No no business could be transacted. Or, as put in a terse joint announcement of the trustees, "no conclusions were reached."

The \$100,000,000-a-year fund is just about broke. The issues among the trustees are (1) whether to seat Dawson, (2) whether to cut off present emergency hospital payments for about 795 injured miners, and (3) whether to resume full pension and other benefits to miners and their families.

**Chauffeur Leaves \$185,000 Estate**

Chicago, Dec. 2.—(AP)—A Swedish-born chauffeur who died last April 4 in California left an estate valued at \$185,136.

He was Albin Johnson, 76, who had been employed by the late Richard T. Crane of the Crane company, manufacturers of plumbing fixtures.

Johnson died while visiting relatives in California. An inheritance tax return filed today showed the bulk of his estate is in blue-chip stocks.

His will directed that the estate be distributed equally among his brother, Carl of Chicago; two nieces, a nephew, two cousins and a grand nephew.

The nephew is Charles Simpson, 2665 Somerset Place, San Marino, Calif. The cousins are Mrs. Alma Babcock and Miss Ellen Johnson, of Chesterton, Ind. The others are Chicagoans.

## Brazilian Plane Crashes In Rain; 20 People Killed

Sao Paulo, Brazil, Dec. 2.—(AP)—A plane crash in a rain storm killed 20 Brazilians yesterday. Only two aboard survived. They were Mrs. Lina Machado and her two-year-old son, Eriberto.

The plane, a Real (Royal) Air Line DC-3 was bound inland from this Atlantic port 200 miles southwest of the capital, Rio De Janeiro.

Apparently groping through overcast for an emergency landing, it plowed into the earth near Ribeirao, not far from the Paranaapanema river. Pilot Carlos Da Rocha, his three fellow crew members and 16 passengers perished.

Among those who died were Mrs. Machado's husband, Antonio, and another son. The boy who lived through the crash was first identified as her daughter. Both the mother and her son were hospitalized at Ribeirao, a town of about 10,000. The extent of their injuries was not ascertained here.

The accident also took the lives of two deaf mute children, 10 and 14 years old, on their way from a school in Rio De Janeiro to their home in Paranaah for a vacation.

The air line office here said the plane, bound westward to Jacareizinho, had circled and returned to Itapetininga, 110 miles out of Sao Paulo, to unload three other passengers because the weather was bad. Then it resumed the flight.

**Illinois Bar Assn. Issues New Guide For Lawyer Fees**

Springfield, Ill., Dec. 2.—(AP)—A new guide for Illinois lawyers in determining reasonable fees to be charged clients was announced today by the Illinois State Bar association.

The guide was reported in the current issue of the Illinois Bar Journal, official association publication, as "merely an aid" in determining fees.

Report said there should be no fixed agreement among association members or the bar generally on fees charged.

"In fixing fees," the Journal said, "lawyers should avoid charges which over-estimate their advice and services as well as those which undervalue them," and should compute fees on an hourly basis when possible.

"A client's ability to pay cannot justify a charge in excess of the value of the service," the report continued, "though his poverty may require a less charge or even none at all."

**Gillette Allows A&P More Time To Organize Defense**

Washington, Dec. 2.—(AP)—Senator Gillette (D-Iowa) agreed today to allow more time for the Great Atlantic and Pacific Tea Company to gather data for a senate hearing on food prices.

Earlier, Gillette had said he was "rather shocked" at the refusal of A&P President David T. Bofinger to appear on Capitol Hill next Monday as requested. The A&P head said he needed more time and it would be glad to appear later.

Gillette said he would use a subpoena "if necessary" to bring Bofinger before senate investigators, but he told newsmen:

"I don't think a subpoena will be necessary. I sincerely hope not."

Gillette is chairman of a senate agriculture subcommittee which is sky today and from it took first, investigating the recent upsurge in coffee prices. It is also looking into the spread between prices the farmer gets for his products and the cost to consumers.

**COLORED PICTURES OF EARTH**  
Alamogordo, N. M., Dec. 2.—(AP)—The air force threw first an aeroback rocket about 60 miles up into the sky today and from it took first, color pictures of the earth. Maj. D. M. Brown of Holloman Air Force base said the rocket was in the air for 15 minutes and attained a speed of 4,300 miles an hour.

**Consul General Angus Ward Will Come Home Next Week**

Washington, Dec. 2.—(AP)—Angus Ward, American consul general in Mukden, Manchuria, today as just a few days from freedom unless the Chinese reds pull another cat-and-mouse trick on him.

Unable for months to obtain exit facilities, the official and his staff have been told to get by 6 p. m. (CST) Tuesday. Ward came through to the state department that arrangements have been completed for their departure by way of the North China port of Tientsin.

Only last week Ward's chief aide, William N. Stokes, was led off, made to "observe" a communist trial of alleged spies and released. A few days before Ward and four of his staff had been convicted of mishandling a Chinese and ordered deported. The date for leaving was left blank. Finally, after a long aid.

The word from Ward came by way of a phone conversation with the consulate people, the reds ordered the whole foreign staff out. It began to appear to officials here that this order may stick.

However, even as the Ward case apparently was being cleared up, a threat arose of possible new difficulties for the United States and other western nations with the red regime. (CST Sunday.)

## Tells Of New Super A-Bomb

### 1000 Times Greater Than Present Ones

Washington, Dec. 2.—(AP) A long-shot possibility exists that the United States has developed a "booster bomb" in the atomic field—one in which an orthodox bomb would touch off another explosive up to 1,000 times more powerful.

There is no official ground for this speculation, but published theory about "super" bombs and the known capabilities of already developed a-bomb employing either uranium or plutonium, justify this reasoning:

On paper, at least, we appear to have the means of using one of the latter bombs—enormously powerful in themselves—to set off a "hydrogen bomb" duplicating a titanic process that goes on within the sun and other stars.

**Would Not Ignite Atmosphere**  
But don't get alarmed about the atmosphere being set afire even if such a hydrogen bomb were developed. Physicists are agreed that there is no apparent danger of setting the atmosphere on fire from any large nuclear explosion.

Such a "booster bomb"—with the older type bomb providing the "boost" for the hydrogen explosive—would be a combination of "fission" and "fusion" in releasing atomic energy.

Fission means splitting the nucleus, or core, of heavy atoms, like uranium or plutonium, to release such energy. Fusion means combining the nuclei of light-weight atoms, like hydrogen atoms, to produce a heavier one—also with the release of energy.

**More Energy Released**  
In the sun and the stars, with the aid of tremendous temperatures, hydrogen nuclei combine to form helium. Great energy—the energy, in fact, that we live by—is released. A particular kind of hydrogen—called "heavy" hydrogen, or deuterium, is involved.

And "heavy" hydrogen is the kind that exists in "heavy" water which is available to scientists.

Up until the first atomic bombs were produced, there was no conceivable way of generating the temperatures that would be required to bring about the hydrogen-helium reaction that goes on in the stars.

But the explosion of an A-Bomb—even of the primitive type dropped on Hiroshima—generates a temperature of many millions of degrees. Such a temperature conceivably would be sufficient to touch off the hydrogen-helium transformation. The "heavy" hydrogen atoms would have to have their temperature raised instantaneously to well over a million degrees.

**Discussed In 1946**  
That a bomb of the hydrogen-helium type was in the minds of atomic scientists who produced the uranium and plutonium bombs was indicated in a speech made by former assistant secretary of war John J. McCloy in 1946.

McCloy told a convention of the National Association of Life Underwriters: "I have been told by scientists who are not mere theorists but who actually planned and made the bomb which was exploded in New Mexico (the first bomb tested) that, given the same intensive effort which was employed during the war toward the production of that bomb, we were within two years time at the close of the war of producing a bomb of the hydrogen-helium type, that is, a bomb of approximately one thousand times of the power of present (1946) bombs."

Senator Johnson (D-Colo.), in his recent much-discussed television broadcast, declared this nation had made progress in work on a bomb 1,000 times more potent than the Nagasaki weapon.

**VA Sets Up Appeal Plan For Schools Disliking Methods**

Washington, Dec. 2.—(AP)—The Veterans Administration today set up appeals machinery for schools that are dissatisfied with the contracts and tuition that VA provides for the training of former servicemen.

The VA said the new procedures will go into effect Dec. 16. Carl R. Gray, Jr., veterans administrator, appointed Charles Manfred Thompson, 72, dean emeritus of the University of Illinois college of commerce and business administration as chairman of the veterans' tuition appeals board.

Thompson is a long time director of education and research for the Illinois Central railway and is director of the Sunlight Coal company, which operates numerous properties in Illinois and Indiana.

Congress ordered the VA to set a three man board to review tuition rates.

Chicago, Dec. 2.—(AP)—Two robbers slugged the general cashier of the Stevens hotel late this afternoon and fled with cash and checks totaling \$22,000.

Police said the cashier, H. W. Kipper, 47, was struck on the back of the head as he stepped from a service elevator to go to his office on the fourth floor of the world's biggest hostelry.

**Forecast for Illinois** — Cloudy, windy and a little warmer today. High 46 to 50.

## Harry Darby Is Appointed Senator To Replace Reed

Topeka, Kans., Dec. 2.—(AP)—Harry Darby, a long master politician but never a candidate, was named Kansas' new United States senator today.

The handsome, hail-fellow-well-met steel manufacturer was chosen by Governor Frank Carlson to fill the unexpired term of the late Republican Senator Clyde M. Reed.

The announcement of the appointment of Darby, who has been the Republican national committee man from his state for nine years, climaxed one of the most hectic periods of speculation in Kansas politics.

The Republican governor, himself mentioned as a possible candidate for the U. S. senate post at the next election, has been deluged with recommendations for the job.

The names of 232 persons were suggested to Carlson

## SYMBOL OF PRODUCTIVITY

(Chicago Daily News)

Always an event of great interest and importance, Chicago's International Live Stock exposition has special significance this year. It celebrates its 50th anniversary. Opening during the Thanksgiving season, it has served for half a century as a symbol of American productivity. It is a folk-festival embodying the American competitive spirit and glorifying the fruits of skill and labor intelligently employed.

Without the competitive stimulus of such great festivals and the honors they confer for outstanding achievement, livestock breeders, hay and grain farmers, and farm youths would have less incentive to strive for perfection in their chosen fields.

For half a century the exposition has brought farm folk, by the tens of thousands, to the metropolis that is center of one of the world's most fertile areas. It has given city folk, by the tens of thousands, opportunity to learn something about the rich valleys and plains that are Chicago's hinterland.

On its 50th anniversary we salute the International Live Stock exposition, and the people who make it what it is. May it continue to flourish for many more half-centuries to come.

## Boyle's Column

## Youth Is The Time To Be Homely

By Hal Boyle

New York.—P.—The first day I went to junior high school—just 23 years ago—there was a pretty girl sitting in front of me in English class.

She was blonde, in a shaggy way and had cupid bow lips and a little brown freckle here and there. I thought to myself, "boy, if junior high is like this I certainly wasted a lot of time getting through grammar school."

About halfway through the lesson, my new dream girl turned around, grinned at me and whispered: "I wonder what you looked like before the mule kicked you?"

I waited until the teacher looked the other way, and then whispered into the fair ear before me: "I never was kicked by a mule."

She turned around and gave me that heartbreak smile again, and whispered:

"Oh, was it a horse then?"

For a moment I didn't understand what she meant. And then I blushed clear down to my new \$2.95 tennis shoes. What this daring old was trying to tell me was that my face looked LIKE IT HAD TAKEN A HOOF MASSAGE.

No one before had ever told me I was homely. I went right home from junior high and spent a half hour grinning at the bathroom mirror.

That blonde was right! No nose needed to spread that wide just to fill one pair of lungs with air. Were those really ears or coat hangers? That hair—or was it moss? Why did anyone need a mouth that big unless he wanted to swallow cracker-jack boxes?

I came out of that bathroom a desperate man. Women were out of my life forever.

For the next ten years I hated that face that looked out at me from the mirror.

But at 23 I made an astonishing discovery—I was still pretty ugly. But I wasn't getting any worse. My ears hadn't grown an inch.

In the years since then I have learned the fine consolation that time brings to the homely. There is only one way for them to grow—and that is better. On the other hand, those who are beautiful or handsome when young can only fade with age.

It's better to be homely young, realize it, and go on to other things. But some day I hope again to meet that blonde I knew in junior high. I'm going to look at her drab, towed hair, her wrinkled face, her crepe paper throat and whisper: "What did you look like, dear, before you got caught in that clothes wringer?"

## MAY ASSERTS HIS INNOCENCE

Prestonsburg, Ky., Dec. 2.—(P)—Former Rep. Andrew J. May, reporter-shy for more than two years, broke his silence yesterday to assert his innocence of charges sending him to prison.

Convicted of wartime bribery and conspiracy, the 74-year-old attorney was ordered to start serving an eight to 24 month sentence. The order was issued by Federal Judge Henry A. Schweinhaut in Washington after he rejected May's plea for a reduction of his term.

"The indelible truth as to a man's guilt or innocence is in his heart. This is how I know I am innocent," said May in a prepared statement.

A set of rules for making the Christmas season safer has been drawn up by the Chamber of Commerce for benefit of business houses and homes. Many practical suggestions are included in the code for protecting lives and property during the holiday season.

The Christmas safety rules are: Christmas Trees—Buy a tree that has been cut as recently as possible. Cut off the end of the trunk diagonally at least 1 inch above the original cut end. Stand the tree at once in a container of water and keep the water level above the cut surface during the entire time that the tree is in the house. If the tree is not to be set up for several days, it should be kept standing in water in a cool place. Do not obstruct any available exit with tree. Use only safe electrical illumination. Have an extinguisher handy. Extinguish lights when no one is around. Dispose of tree before it dries.

Package Wrappings—Avoid accumulation. Here is real danger. Dispose of wrappings promptly. Keep combustible materials away from candles, fireplaces and stoves. Show Windows—Urgent extra precautions for merchants in arranging window displays, with special attention to safe electrical installations. Warn against the use of unsafe wiring and fixtures. Smoking—Should be prohibited in stores and places of public assembly. Keep matches and smoking materials away from temporary accumulations of wrappings. Use large NO SMOKING signs. Holiday Fire Safety—Clean up immediately following celebration. Screen all open fireplaces. Protect mantel scenic effects. Take no chances with defective temporary wiring. Be sure your tree wiring is in safe condition. Use metal tinsel, flake asbestos and powdered mica for snow effects instead of paper and cotton. Avoid toys operated with flammable liquids. Nitro-cellulose with burn with surprising force. If anyone's clothing ignites, roll him at once in a rug or a woolen blanket. Electric candles are safest. If you must use ordinary candles keep them away from curtains or other inflammables.

For a different soup garnish cut luncheon meat in tiny cubes and fry until crisp and brown. Serve as you would bread croutons.

## Brings Suit For Crash Damages

Willis J. Martin of Champaign, an insurance adjuster, has filed suit against Don Irving of near Chambersburg, as the result of an automobile collision last summer in which both men were badly injured. Martin asks \$10,000 personal injury damages; \$2,500 for destruction of his car, and \$300 for loss of personal belongings including spectacles and clothing. He is represented by Vaughn, Robinson and Foreman, local attorneys.

The plaintiff set forth that the collision occurred July 18, 1949, six miles east of this city on U. S. Highway 36. Excessive speed, passing in violation of state traffic laws, and other charges of negligence were made by Martin against Irving.

There was nothing sacred or religious about the American Indian's totem pole. It simply represented his claim to wealth and fame.

## MIKE'S MARKET

927 South Main Phone 2280

The 13 new members received into the Business and Professional Women's club since the beginning of the 1949-50 club year were honored at a meeting held Thursday evening at the Dunlap hotel.

Martha Mason, membership chairman, introduced the new members as follows: Miss Eleanor Brockhouse, admission clerk, Passavant hospital; Miss Maude Ryman, head resident, Illinois college; Miss Evelyn Armstrong, teacher, Jefferson school; Mrs. Cornelia Lane, owner, Lane's Book Store; Mrs. Ruby Milsagie, co-owner, Laundromat; Miss Pauline Kennedy, nurse, Dr. Schultz's office; Miss Katherine Barr, organization manager, Curtis Publishing Co.; Mrs. Marie Shearburn, office clerk, J. Capps & Sons; Mrs. Myrtle Acree, clerk, Emporium; Mrs. Nellie Morgan, stenographer, Illinois Public Aid; Miss Ruby Stovall, teacher, Jefferson school; Miss Adeline Mlekush, speech correctionist, city schools; and Mrs. Sally Ball, bookkeeper, Ideal Bakery.

Other members of the membership committee, having charge of the program for the evening were Anna Mann, Mate Giddings, Lucille Borth, Louise Strandberg, Martha Rideout and Ruby Milsagie.

**Welcomed By President**  
Dr. Mary Louise Newman, club president, welcomed the new members and spoke briefly concerning the significance of membership in the club. A history of the federated club was given by Miss Blanch Spaul, junior past president.

Dr. Elsa P. Kimball, professor of sociology at MacMurray college, was the speaker of the evening. Her topic was "You, the Member."

Though not a member of the club Dr. Kimball showed a real understanding of its history and purpose referring to the club as the vanguard of groups working for the advancement of women.

She expressed the belief that girls do not receive enough early training for participation in civic affairs. Her contention was that their training and experience is not on a par with that of boys. "They must be taught to have faith and confidence in themselves and in each other," declared the speaker, "to become less personal and more cooperative."

"These characteristics," she continued, "can be developed in women by study, by becoming informed and by experience gained through active membership and participation in a group such as the Business and Professional Women's club, which shows women an open door to better living."

On Dec. 15, the club will have a Christmas party, in the charge of the social committee, Minnie Wyatt, chairman, and the courtesy committee, Nellie Phillips, chairman.

The supper committee will be comprised of Barbara Hart and Donna Burrus. Anna Mann will serve as cashier.

## PATROLMEN WARN OF COLORS USED IN DECORATIONS

Jacksonville and Morgan county automobile drivers who decorate their cars with reflectors other than green or amber are violating the law, state police pointed out here Friday.

Patrolman Jack Hoecker said some cars have been decorated with gad-gad colors which flash red, blue, and other colors at night. "These are illegal, leading to confusion especially with emergency cars," he declared. "These will have to be removed or arrests will be made."

State police also called attention to the habit of numerous bicycle and motorbike riders who fail to make boulevard stops. They warned that riders will be nabbed for violations, as the law applies to them as well as automobile and truck drivers.

## Sheppard Among Possibilities As School Candidate

Springfield, Ill., Dec. 2—(AP)—Noble J. Puffer, state director of registration and education, removed himself today as a possible candidate for state school superintendent in the 1950 Democratic primary.

Puffer told reporters: "I'm not interested at all in running for state school superintendent. What I would like to be is Cook county school superintendent."

Puffer had been receiving prominent mention for the state job on the Democratic ticket next year. The Cook county school position is up at the same time.

Before he was appointed state director by Governor Stevenson this year, Puffer served three terms as Cook county school chief.

Several other names are being mentioned by Democrats for state school superintendent. Among them are Dr. Victor Sheppard of MacMurray college, Jacksonville; Paul Grigsby of Granite City, superintendent of schools; Samuel Sullivan, DeKalb superintendent of schools, and Dr. Chris D. Young, now on leave of absence from Illinois State Normal University.

## Auxiliary To Operate Gift Shop For Vets

With Christmas only a few weeks away, the hundreds of volunteer rehabilitation workers of the American Legion auxiliary are completing their holiday plans—plans which they hope will offset the yuletide homesickness almost universally experienced by the thousands of veterans in hospitals throughout the nation.

According to Mrs. Louise Robinson, rehabilitation chairman for Jacksonville Unit 279, the Auxiliary will again this year set up the Christmas gift shops in hospitals where disabled veterans, with little or no funds, may select gifts for their families.

Patients able to leave their beds have the privilege of selecting gifts from the shop shelves. For the many patients, hospital carts loaded with gifts are taken to their bedside for them to make their selection. Auxiliary volunteer workers operate the shop, gift wrap and mail the packages.

**At State Hospital Dec. 8**  
Mrs. Mildred Smith, Auxiliary president, announced that The shop will be held at the Jacksonville State hospital on Thursday, Dec. 8, at 1 p.m., in the charge of Audra Liven-good, department hospital chairman, assisted by Mrs. Frances Barger, Mrs. Louise Robinson, Mrs. Elizabeth Doolin, Mrs. Mildred Smith, Mrs. Frances Perry, Mrs. Trilby Skinner, Mrs. Lena Underbrink, Mrs. Rachel Massey, Mrs. Emma Burk, Mrs. Harriet Pate, Mrs. Pierce and Mrs. Frances Davis.

Ten such shops were operated in Illinois hospitals last year at a cost of \$4,282.13.

The members of Jacksonville Unit are still collecting old gold and silver eye glass frames for the Auxiliary's transportation fund to be used by needy disabled veterans and their dependents. Mrs. Robinson is in charge and may be reached at 1972-Y.

The Auxiliary has trained volunteer chairmen and workers in 29 Illinois hospitals where veterans are patients. Mrs. Livengood stated that there are over 1,000 trained volunteer Auxiliary hospital workers in Illinois and approximately 8,000 in the 47 states in which training schools were held last year.

The Auxiliary's year-around rehabilitation program, such as supplying Vaponefrin to asthmatic veterans, insulin to diabetic patients, seeing that hospitalized men and women have a good supply of stationery, cigarettes, toilet articles, entertainment and personal comforts they may not be able to afford, is constantly being expanded.

## CHICAGO LIVESTOCK MARKET REPORT

Chicago, Dec. 2.—(P)—Hogs closed out a well-supplied week on a steady to 15 cents higher tone today. Cattle and sheep were mostly steady.

Good and choice butcher weight hogs sold from \$14.75 to \$16.00 generally, the top reaching \$16.10. Sows were \$11.75 to \$14.00.

Most of the cattle run was good grade or less, only one lot of choice steers and heifers appearing. These sold at \$35.50. Medium and good steers and yearlings sold broadly from \$22.00 to \$33.00 and a load of medium to low-good heifers took \$24.50. Sausage bulls topped at \$19.75 and wealers practically at \$26.00.

Sheep supplies shrank almost out of sight, or at least were inadequate for a good market test. Most lambs ranged downward from \$23.00, al-though choice lightweights were quotable to \$23.25. Yearlings were absent, while native ewes grading good and below took \$8.50 to \$10.50. Overnight receipts were estimated at 10,000 hogs on sale, 1,000 cattle, 300 calves, and 500 sheep.

## Grains Spurt On Board Of Trade

Chicago, Dec. 2.—(P)—With export business providing the background, grains spurted on the Board of Trade today. The advance was led by soybeans and corn.

All deferred deliveries of wheat scored new seasonal highs, but the December contract found the going tough. It advanced early on lifting of hedges against sales of flour to the production and marketing ad-ministration. But it dropped quickly once that demand was filed.

Oats lagged at the start on profit-taking. Strength elsewhere eventu-ally brought some buying into oats, although gains were held to frac-tions. Rye jumped a few cents on short-covering. Lard held firm.

Foreign nations bought both corn and soybeans overnight, and further sales of corn were made through-out the day.

Receipts were: wheat 7 cars, corn 76, oats 20, rye none, barley 10, soy-beans 11.

Wheat closed 11 lower to 5 higher. December \$2.17 1/2, corn was 1-1/2 higher. December \$1.29 1/2-1.30, oats were unchanged to 5 higher. Decem-ber 77 1/2-31, rye was 21-31 higher. December \$1.41, soybeans were 11-21 higher. December \$2.32 1/2-2.33, and lard was 12 to 18 cents a hundred pounds higher. December 10.22.

# Christmas Decorating Contest Begins Dec. 21

Jacksonville will again have a Christmas home decorating contest, giving residents of this area an op-portunity to win cash prizes by beautifying their homes for the Yuletide season.

Announcement of the contest was made Friday by George Coldewey, managing superintendent of the City Water and Light and Power Depart-ment, which is sponsoring the com-petition.

Revived last year for the first time since before the war, the contest met with such enthusiastic response locally that this year it will include the entire Jacksonville area.

## \$65 in Prizes

Sixty-five dollars in prize money is being offered. The grand prize is \$25. There are also five prizes of \$5 each and 15 lesser cash awards.

There are no specific rules to fol-low in arranging a display, other than that it be easily visible from the street. It may be either indoors or outside, on a porch or lawn or even on the roof.

The displays need not be elab-orate or costly. Attractiveness, orig-inality and appropriateness are the points to be considered.

In Effect Dec. 21-Jan. 2  
The contest will be in progress from Wednesday, Dec. 21, through Monday, Jan. 2. All entrants are required to have their displays light-ed during that period, from 7:30 to 10:30 o'clock each evening. Last year failure to comply with this rule elim-inated several nicely-decorated homes, which might otherwise have been awarded prizes.

A group of impartial judges will view the homes and choose the win-ners. Their decisions will be final. Winners will be announced shortly after the conclusion of contest.

Those wishing to enter have been

## Poisonous Gas Affects Firemen In Store Blaze

Barberton, O., Dec. 2.—(P)—Two firemen were in critical condition in Citizens hospital today and a score of others were hospitalized as a result of a \$100,000 fire in down-town Barberton.

Chemists rushed analysis of pho-nograph records and other plastic objects from the burned building to determine whether poisonous phos-gene gas had been released. The gas was described as one that packs a sometimes lethal wallop as much as 24 to 48 hours after being breathed, and similar to some gases developed in World War two.

Nine firemen were taken to the hospital shortly after the blaze. In the next few hours, thirteen others were hospitalized.

The Columbia Chemical Co. chem-ist tentatively identified the gas which affected firemen and declared it was of a type that affected victims 24 to 48 hours after being breathed.

The blaze hit the H. E. Simon jewelry store last night during the Christmas shopping rush. Barberton's 32-man fire department had help from volunteers from Coventry, Cuyahoga Falls, Norton, Springfield Township, Clinton, Manchester and two Akron departments.

The blaze whose origin has not been determined, caused \$80,000 damages to stock and \$20,000 to the building, according to Fire Capt. Luther Culbertson.

## Bill Shouse Leads Blueboys To 68-48 Win

Mt. Pleasant, Iowa—Bill Shouse set the pace with 26 points as the Illinois College Blueboys ran rampant over Iowa Wesleyan and grabbed their first win of the season for Coach Al Miller by a 68-48 margin.

Miller, reporting by telephone from Keokuk, Iowa, was pleased with the Hilltoppers' performance against the Iowa quintet. He used 13 players and eight of them scored. Shouse, he said, was red-hot with his long one-handed shots.

Playing plenty of defensive ball, the local collegians stormed into a 34-17 lead at the intermission. From then on it was duck-soup as Miller inserted subs at will, saving his regulars for the home debut with McKendree on the ISD planks to-night.

## Westenders Look Good In Gaining First Home Win Over Perry 55-39

By Tom Comerford  
Coach Spike Wilson's I.S.D. Tigers completely out-classed, out-passed, out-played the invading Perry Pioneers last night in grabbing a 55-39 decision from the Pike county crew.

Playing on the local I.S.D. boards the westend preppers took the opening tip-off to jump into an early lead and from then on they were never headed. A precision like offense coupled with a smooth-shifting man to man defense gave the locals the attack needed to garner their second consecutive victory of the season in as many outings. The Tiger's first victory was at the expense of a strong Waverly quintet Tuesday night.

Every Man Scores  
With every man in the starting lineup hitting from the field in the first quarter, the local hoopers snatched a 17-7 margin at the end of the initial period. Rafter swished the net with the opening up-off and his team mates soon joined the attack. Cecil hit with two one-handers from far out in the early minutes to tack on to the early margin.

Irvin Carlstedt controlled the bank-boards with rugged abandon and tipped in two field goals to add to the rolling force. Hood with a fielder and a free throw, another free loss by Paul, with Rafter's second field goal and one free shot, completed the local's scoring spree in the first chapter.

The Perry aggregation managed one goal from the field in the initial period and threw in five one-pointers to register a scant 7 points for their efforts.

Leo Cecil turned thief in the second period and stole the ball three times in front court to chalk up six counters for the Tiger cause before the halftime intermission. Again, Carlstedt showed his prowess under the boards and baited in two more fielders along with a goal to make up the ISD scoring attack in this chapter. As the Tiger defensive gained strength the Perry offense was slowed almost to a halt. The Wilson-coached men used an almost flawless shifting man to man defense through which Perry could only move to tally three field goals in the entire first half of play.

**Tigers Strong After Half**  
Coming back after intermission the unrelenting Tigers resumed hostilities and moved to a 45-23 margin at the end of the three-quarter mark. Five ISD basketballeers participated in the scoring the third period. Diminutive Leo Cecil hit with uncanny accuracy to press the attack. Cecil hit 'em long and short to give the Wilsonmen the insurance needed for their victory.

Coach Wilson sent in the reserves in the final count when victory was inevitable. Fourteen men took part in the game for the Tigers and half of them entered in the scoring. Cecil was the high scorer for the night with 18 points to show for his efforts during his three quarters of play. Carlstedt with 12 was not far behind for the locals.

Drake and Reeves with 13 and 12 points respectively led the Perry scoring. The preliminary game was won by Perry 37-27.

Technical Experts: NED DAY and MILTON RAYMER, in cooperation with the National Bowling Council

**NO. 27—SAFETY RULES**  
While bowling is not by any means considered a hazardous game there are a couple of so-called "safety rules" for you to know and remember that will make the game more enjoyable for you and others.

One is a "safety rule" about handling your ball on the ball return. In (1) we show a bowler who doesn't know how to pick his ball up from the return. Another ball coming up the return is likely to smash his finger the way he is doing it. There is a right and safe way to pick up your ball (2). Simply grasp it with both hands on the outside...not inside, where a returning ball might hit them.

Never try practice swings while awaiting your turn to bowl (3). Someone walking behind you might get hurt. There is only one time to swing your ball, and that's when you're actually bowling.

In our next installment we'll start an important discussion about good bowling manners. (For a complete set of 3 handbooks on bowling fundamentals, send 25 cents to "BOWLING" care of this newspaper.)

**ROCKETS MEET TOUGH CATHEDRAL QUINTET TONIGHT**  
Paul Stroud had to wait until last night to learn what his Routt Rockets will be up against when they travel to Springfield this evening to take on Cathedral's Cyclone quint at Lanphier gymnasium.

Mike Gleason & Co. were on the road last night, playing at Mt. Olive. They banged into a work-toughened bunch over there than won 20 and lost six games, last year and are returning to a man this season.

Gleason experimented with his talent last night but will probably rely on Bill Saucier and Jack Reid at the forwards with Bob Sams, center and Augie DiCenso and John Casey, guards.

**There'll Be Some Changes Made**  
Stroud, popular young Routt tutor, hints that there will be some changes made when he announces the starting Rocket lineup at Springfield tonight. He refused, however, to hand out any information for the fans, preferring to surprise.

Routt looked only semi-impressive against Franklin in its opener Tuesday night. The locals had all they could do to whip—Joe Treat's Flashers 27-26. Lack of offensive power in the Rocket lineup was evident.

Stroud hints that a change may clear up that problem. He has been experimenting with the eas-siders all week in an effort to add more scoring punch to the lineup.

The Rocket forwards will be Hinky Henry, Dick Casler, and or Jimmy Sellers. Billy Kaufmann and Paul Saner are dueling for the starting center job while A. J. Spreen and Sonny Longman are fairly well set at the guards.

The preliminary will start at 6:45 in the Lanphier gymnasium. Jacksonville and Springfield stations will broadcast the game.

Conductor Draws Discord In Death  
Washington—(P)—Dr. Hans Kindler, former conductor of the Washington Symphony Orchestra, requested in his will that he be buried "preferably on a hilltop."  
"I definitely do not want my body to be handled by undertakers, nor to have it exposed after the second day. Just a few bandages will be sufficient," he wrote. For music at his funeral he wanted the slow movement of the Haydn Quartet in C major (the Gypsy), and "any of the better chorales by Bach."  
When he died, his funeral was arranged by undertakers, and the music requested was not played. The Musical Art String Quartet, which he wanted to play, is no longer in existence.  
In television an actress with blond hair is called a "blizzard head." That's because this tin tends to cause flares in the camera.

Conductor Draws Discord In Death  
Washington—(P)—Dr. Hans Kindler, former conductor of the Washington Symphony Orchestra, requested in his will that he be buried "preferably on a hilltop."  
"I definitely do not want my body to be handled by undertakers, nor to have it exposed after the second day. Just a few bandages will be sufficient," he wrote. For music at his funeral he wanted the slow movement of the Haydn Quartet in C major (the Gypsy), and "any of the better chorales by Bach."  
When he died, his funeral was arranged by undertakers, and the music requested was not played. The Musical Art String Quartet, which he wanted to play, is no longer in existence.

Winchester—William Calvin Simmons, 69, one of the most successful farmers in Scott county, died at 10 p.m. Friday at his home after suffering a heart attack. He was attended by Dr. William O'Reilly of Winchester.

He was born July 3, 1880, in Scott county, the son of the late John and Mary Simmons. His residence was a farm west of Winchester.

The decedent is survived by his wife, Lela Simmons; a daughter, Edith Bickerdike of Griggsville; a son, Stanley Simmons, of Winchester; and four grandchildren. Bill and Jim Simmons, whom he raised, and John Calvin Bickerdike and Jocelyn Ann Bickerdike.

He also leaves three sisters, Mrs. Arthur Murray and Mrs. Joseph Barnett of Greenville, and Mrs. Margaret Dobson and Mrs. L. Black of Peoria; two brothers, George Simmons of Peoria and Wes Simmons of Canton; and three half brothers, Don Simmons of Pittsfield, Roy of Meredosia and Harold of California. ## I. C. Students From Five Lands Speak At Rotary

Five Illinois College students from foreign countries held a panel discussion on international understanding at the regular meeting of the Rotary Friday. They were David Cohen from Israel, moderator; I. R. Ho Kim from South Korea, Shaokur Shalaan from Egypt, Jasy Brigosinski from Poland and Robert Fast from Belgium.

President Crit Handline was in charge of the meeting, at which Rev. Harris Pankhurst gave the official welcome. George Collewary, managing superintendent of the city water and power departments was introduced by John Hall as a new member. Mrs. Leola Hutchinson was welcomed back as the pianist, and Arthur Cody led group singing. Rev. Clair Malcolmson gave the benediction.

Some South Koreans are courting Communism, declared Ho Kim, because of low pay, poor living conditions, no modern machinery and ignorance of the world situation.

Shalaan expressed hopes that Egypt's plans for large-scale irrigation will improve living standards. Wealth, very unequally distributed, is being taxed for the relief of indigents.

Poland's opposition to Communism was Brigosinski's subject. He said that this is effected by a few nationalist parties supported by foreign powers. He also discussed the persecution of the church by the Communists' special trials of clergymen.

The Marshall Plan, in which Belgium participated, was helpful but does not change living conditions. Fast explained. The standards are being raised somewhat by the production of uranium mines.

## Capacity Crowd Hears, Enjoys U. S. Ballads Sung By Burl Ives

Let us share an experience that we aren't likely to forget Burl Ives has the taste, the uncanny sense of timing, and the personality that make him the outstanding interpreter of American folk-music and of ballads from everywhere.

Burl Ives, who was heard at the auditorium of the Illinois School for the Deaf in the second concert of the MacMurray College series, played to a capacity crowd that was "with him" from the moment that he stepped on the stage, and which received each number with equal enthusiasm. There were pieces that are often heard, and they were welcomed with the satisfaction with which one hails an old friend; and there were new things that were heard with curiosity and contentment.

Mr. Ives presented three groups, alternating the numbers of a more serious nature with songs in a lighter vein. In the first group the list-eners seemed especially happy with the folksy humor of the Boll Weevil song and the last number, "Bonnie Wee Lassie," which was topped by the rabel encore about the gal from Kentucky who snatches a husband at 14 and makes her own mother hanker for a second marriage.

**Troubadour Song Impressive**  
In the second group I was particularly impressed with the "Troubadour Song" and with the interpretation of a poem by William Butler Yeats, "The Wanderer of Old Angus." Burl Ives says that Yeats was in the habit of chanting this poem, and he gave a very convincing presentation, without accompaniment, and the absence of the guitar lent to this number a strangely archaic character, reminiscent of ancient bard.

After the intermission Mr. Ives presented two very beautiful ballads, "Brennan on the Moor" and "Golden Vanity," both very dramatic, and both done in marvelously good taste. Besides a few shorter pieces, he delighted the audience with a song about the sailors on the Erie Canal. He confided that sometimes he just doesn't like to sing what's on the program; and he therefore substituted something else for the "Nightingale Song."

In the final number (of the printed program) Mr. Ives got his listeners to join humming the refrain to "Mr. Froggie," and having thus gotten us in the right mood, he yielded a number of encores, notably the "Foggy, Foggy Dew," the familiar song about the hobbo's paradise with the rock-candy mountain, and the "Blue Tail Fly," with the audience doing a creditable job of the refrain, "Jimmie crack corn and I don't care."

**Christmas Music, Address Features At Woodson P.T.A.**

Woodson—Carols were sung by the audience, led by Oliver McIlraith, and accompanied by Miss Elizabeth Slaughter, at the December P.T.A. meeting in the school auditorium Thursday evening, and a Christmas program was presented.

Mr. McIlraith presided, and Mrs. Oswald Crain and Mrs. Albert Hoagland gave reports. Those on the program committee were Mr. and Mrs. Frank J. Flynn, Mr. and Mrs. William Lonergan and Mrs. Harriet Smith; on the refreshment committee, Mr. and Mrs. McIlraith, Mr. and Mrs. Wesley Spencer and Mr. and Mrs. E. Smith.

A vocal solo was rendered by Miss Peggy Flynn accompanied by Mrs. Frank J. Flynn, and two numbers were given by the Boys and Girls chorus. Their accompanist and director is Miss E. Slaughter. An address on "The Christmas Story" was presented by Dr. Arie Vanderhorst.

**Bean Obstructs Windpipe, Greene County Girl Dies**

Alton, Ill., Dec. 2 —(P)—A navy bean that apparently blocked her windpipe proved fatal today for three-year-old Judy Ann Daniels.

The child, one of nine children of Mr. and Mrs. Everett Daniels of Kane, died in surgery about 1 p.m. Her parents noticed three hours earlier that she was having difficulty in breathing. They took her to a hospital in Carrollton. Physicians there recommended a specialist and the child then was brought to Alton in an ambulance. Oxygen was administered on the way.

Surgeons here decided to operate. But little Judy Ann's heart gave out. Her parents were unaware the girl had swallowed the bean, which was found lodged in her lung.
